Igor Babko

Senior Frontend Engineer

I'm a **TypeScript & React** engineer with 12+ years of experience architecting scalable and performant UIs with prior **Node.js** and **PHP** experience.

👛 EXPERIENCE

Senior Frontend Engineer

SOCi [🔗](#)

07/2019 - 01/2026

San Diego, USA (remote)

Marketing platform for multi-location businesses

- Participated in the transition of a large-scale monolith into micro-frontends, enabling independent deployments that were at least 3 times faster for 10+ autonomous teams
- Established frontend best practices, coding standards, linters, and CI/CD pipelines that reduced production bug reports by approximately 30%
- Built a highly interactive drag-and-drop report builder with complex client-side state management
- Built a content calendar app that let businesses create personalized marketing campaigns on social networks
- Standardized frontend architecture for a multi-location marketing platform by implementing shared design systems that streamlined the development lifecycle

Backend Engineer

Monotote [🔗](#)

09/2017 - 08/2020

New York, USA (remote)

E-commerce platform for retailers and publishers

- Built an e-commerce web application for retailers and publishers
- Integrated various social network and e-commerce APIs to expand platform functionality
- Developed an image processing service

Full-Stack Engineer

Mayven [🔗](#)

03/2017 - 03/2019

Austin, USA (remote)

Full-service design and development agency

- Built SaaS applications, CRM systems, and a WYSIWYG editor

Full-Stack Engineer

Freelance

03/2015 - 07/2017

Sumy, Ukraine (remote)

Various Local Businesses

- Operated as a freelance web developer on Upwork
- Built websites for small businesses

🎓 EDUCATION

Master of Computer Science (A+)

Sumy State University

09/2012 - 03/2018

Sumy, Ukraine
